7th Edition
March 6th, 2015
Welcome to the GIANT Campus
The GIANT partners are working together with a common set of objectives:

- to respond to major societal challenges; information, energy and health
- to remove barriers to create centres of excellence
- to achieve a major urban transformation by harmonizing urban and scientific development
GIANT: it's a lot of constructions...
Connect GIANT Junior Scientists to Industry professionals:  
→ To bridge the gap between industry & research, networking, one day event, video clips,…

Give support to candidates to ERC grants (1,5M€/5 years)

→ To promote Grenoble scientific excellence: training session, reviewing applications before submission to ERC, preparation for interviews

GIANT Team Tool set

GIANT student network
→ To develop the young researcher’s network: visits, social events, gathering

GIANT International Internship Programme (GIIP)
→ To attract international young talents to Grenoble and develop cooperative projects

Need a tool?
Contact the GIANT project team

…but also a campus life!
2015 JSlam: Objectives
