An unlikely meeting
Detect motor vehicles and prevent illegal logging before it happens. Note that both sides (rangers and loggers) are well armed. Quickness of response is crucial.
01 Rainforest Connection – cloud API
Rainforest Connection – Why?

• Prevent illegal deforestation
  Up to 90% of logging in tropical rainforests is illegal. (UN)
  Deforestation accounts for 17% of all global carbon emissions.
  Protect indigenous reserves which comprise 20% of the Brazilian Amazon rainforest.

• Halt animal poaching
  Protect vulnerable species.
  Maintain forest biodiversity.
  Limit spreading of diseases.

• Create a digital library of audio recordings of rainforests
  Platform for scientific research to track and protect endangered ecosystems.
  Land management, policy changes.
  Species reintroduction monitoring.
